PROJECT DESCRIPTION

Adventure Parks are intended to be in a natural setting. The park will offer a variety of activities, ranging from rope climbing exercises to obstacle courses, recreational spaces providing active games and adventures, and collective racing for every age. For the construction of the park, a considerable number of strong and mature trees (approximately 60-140 trees) and a land area of around 1.5 ha are required.

The park should offer activities at four different levels of difficulty:

- The mini program aimed for children over 4 years-old; that will permit parents to follow and help their children;
- The easy program intended for families;
- The demanding program intended to challenge amateur sportsmen;
- The difficult program intended to challenge skilled sportsmen and offer the greatest thrills.

OVERALL OBJECTIVE

Creating creative and ecological opportunities for active recreation in the Parks of Tirana through the introduction of new methods of entertainment. Responding to the needs of the community to return to nature, and to conduct a more active life.

PROJECT IMPLEMENTATION MODALITY

- Identification of the area and ensuring accessibility;
- Area planning and assessment of the forest land
- Assessment of the trees quality and identifying areas for key activities;
- Completion of a geological study
- Assessment of the traffic area and parking spaces for cars
- Plan optimization of the available budget;
- The detailed budget proposal for the construction of the park including maintenance fees
- Development of the Detailed Implementation Plan

PRELIMINARY IMPACTS

Making this entertaining activity popular to different age groups in the shortest time. Community orientation toward nature to conduct a more active life. Attractive to families, adults and children, scouts groups, hiking groups, schools and colleges etc.
