

Tirana Tulip Garden

about project

L09

Budget

EUR 85,000 (ex. VAT)

Municipal contribution

Tirana Municipality/TPRA can cover about 20% of the total budget in addition to the provision of land.

Municipal sectors/ directorates

Tirana Parks and Recreation Agency (TPRA)

PROJECT DESCRIPTION

TPRA intends to start this project in June 2016, ensuring that the planting process occurs in optimal climatic conditions.

There are four venues under consideration:

Option 1: Botanic Garden area (if this unit, according to provisions, will be under the administration of TPRA).

Option 2: Artificial Lake Grand Park area.

Option 3: Tirana Central Park, in the new boulevard that is being built (preferably inside a closed or fenced perimeter).

Option 4: Tirana Zoo.

It is necessary that the implementation of this project is supported with technical assistance in the form of TPRA staff training and oversight.

OVERALL OBJECTIVE

Creating a suitable recreational environment in the existing parks.

Increase the surface of green decorative areas and gardens that serve the public. This practice could be replicated for rose or jasmine gardens.

PROJECT IMPLEMENTATION MODALITY

The Technical Sector will determine the technology and the specifications of the territory where the tulips will be planted. The Sector of Plant Production will use 200 square meters of greenhouse and 200 square meters of nursery space.

The Sector of the Artificial Lake Grand Park will engage 8-10 workers to transplant the seedlings in the garden / park and 2 workers to maintain the tulip garden. Training of the technical operators and workers regarding the methodology and the specific work, from the seedbed up to the nursery garden/ garden of the sustainable and recreational parameters.

PRELIMINARY IMPACTS

The garden park containing colorful parcels and being equipped with benches will provide a satisfactory experience for visitors.
