

## Recreational Sports Program Tirana

about project

# L48

### Budget

-

### Municipal contribution

Drafting and monitoring the project

### Municipal sectors/ directorates

The general directory of City promotion, The directory of sports, The general directory of public relations and communications, Directory of regional education (DRE)

### PROJECT DESCRIPTION

Set up a formal sport activity system by organizing sports classes as extra-curricular activities (outside school hours). Sports teams will be established for the secondary education level (9-years schools) and will be divided by age group. The matches will take place in the current sports facilities offered by the schools. Classes will be organized in three disciplines; Volleyball, Basketball and Mini football for both males and females. Also, there will be championships organized for each discipline in all the 24 administrative units.

### OVERALL OBJECTIVE

Cultivate a new sports oriented young generation

### PROJECT IMPLEMENTATION MODALITY

- Set up or consolidate (as required) the sports teams in the 9-years schools
- Design a detailed sports activities program (divided by school, area, time periods)
- Coordinate sports activities between classes/schools
- Bind working partnerships between schools, their sports organizations and the sport federation

### PRELIMINARY IMPACTS

- Increased number of students participating in sports activities
- Increased number of identified talents
- Improved social interactions among youth.
