PROJECT DESCRIPTION

The school is located at the former aviation base, in Tirana's Administrative Unit Nr. 7. It is a 3 floor building that covers an area of 815 square meters. To date, it serves 595 students, but is projected to double as a community center and therefore it reaches a capacity of 600 people from the community. It has 19 classrooms with an average of 31 students each, a chemistry lab, a biology lab, and a computer lab. It has an urgent need for reconstruction, additional classrooms and an inside gym with a total area of 545 square meters. A sport area and the extension of the volleyball court of 755 square meters are also envisaged as part of the project. This intervention will improve the conditions in the school as well as make it suitable to serve as a community center.

OVERALL OBJECTIVE

Rehabilitate and extend Dhora Leka School in order to improve the conditions of the classrooms for the students and the community. In addition, provide the school with the necessary sport infrastructure for the carrying out of the mandatory sports curriculum and better use as a community center.

PROJECT IMPLEMENTATION MODALITY

The project foresees a complete overhaul of the existing structure and the construction of additional spaces for sport activities. The list of activities to take place is as follows:

- Reconstruction and repair of the school building;
- Creation of recreational spaces;
- Improvement of technical laboratories;
- Adoption of facility for use as community center;
- Additional gym area and reconstruction of existing area;
