

## Full reconstruction of the “Hasan Vogli” School

about project

# \$10

### Budget

ALL 70,928,035

### Municipal contribution

General Directorate of Public works

### PROJECT DESCRIPTION

“Hasan Vogli” is an old, primary school located in Administrative Unit Nr. 10. It serves a total of 900 school children. Following the project of the Ministry of Education and the Municipality of Tirana on turning schools into community centers, the school is also expected to serve an estimated 800 members of the community. However, the school is currently in a dire need of reconstruction in order to raise its standards. The project aims to improve the standards of the infrastructure while reorganizing the internal spaces of the school in order to make it suitable for its role as a community center.

More specifically, the intervention foresees the complete reconstruction of the existing building, the upgrading of sanitary facilities, creating access for the disabled, upgrading of electrical grid, installation of a fire protection system, installation of Internet telephony and waterproofing of terraces.

### OVERALL OBJECTIVE

Reconstruct the Hasan Vogli primary school and improve the standards for school children by providing more comfortable teaching facilities as well as recreational spaces.

### PROJECT IMPLEMENTATION MODALITY

The school is currently in dire need of reconstruction. The project envisages a complete overhaul. The list of activities is as follows:

- Reconstruction and repair of the school building;
- Creation of recreational spaces;
- Improvement of technical laboratories;
- Adoption of facility for use as community center.
