## Reconstruction of “Luigj Gurakuqi” school

about project

**\$15**

**Budget**

ALL 102,207,478

### PROJECT DESCRIPTION

Luigj Gurakuqi school is located on the east side of Tirana. It was built in 1980 for people with different abilities. It was reconstructed in 1995 by the Ministry of Education. It is a 3 floor 622 m2 building in a land plot of 7000 m2. Due to its age and the long time that has passed since its last reconstruction, the school suffers from many problems such as humidity and leakage, poor thermal isolation, plumbing and electrical problems. The project will consist in the total reconstruction of the school and partial reconstruction of the adjacent dormitory, plastering, new windows, doors and thermal isolation, painting, tiles, fire safety system and an upgrade of the electrical grid. The installation of a new heating system will save energy costs and provide better conditions.

### OVERALL OBJECTIVE

The project will totally reconstruct Luigj Gurakuqi school in order to provide decent standards in what is one of the few institutions dedicated to the teaching of people of different abilities.

### PROJECT IMPLEMENTATION MODALITY

The project foresees the following activities:

- Reconstruction and repair of the school building;
- Increasing school capacity;
- Creating recreational spaces for attendance not only by school children but also by individuals as part of community centers;
- Improvement of the technical teaching facilities;
- Increasing the efficiency of energy use, through the installation of the heating system.
